PDG in Information Technology

Jahangirnagar University
Savar, Dhaka, Bangladesh

I have completed the degree to enlighten my career in Information Technology. As a passionate back-end developer, I had always been in hunting to learn with deep dive. So I get admitted myself to Jahangirnagar University, I have learned engineering stuff and got path to move my career.

😎 About Me

As a backend enthusiast I love to write code in PHP, Python and I always practice algorithm and cloud based environment. I know the usage of SOLID principle and Design Pattern. I love to learn new and cutting edge technologies. And there's one last thing, I believe in technic over magic.
